

## ► Automobile air conditioning compressor inverter drive controller series

◀ 110V driver

|                                       |                    |
|---------------------------------------|--------------------|
| 排量 Displacement                       | 27cc               |
| 转速范围 Speed Range (rpm)                | 800-8500           |
| 制冷剂 Rerigerant                        | R134a              |
| 驱动电压 Voltage (V)                      | 110V<br>(65V~135V) |
| 控制电压 Voltage (V)                      | 9~16V              |
| 最大输出功率 (W)                            | 2500               |
| 通讯方式 Communication                    | CAN/LIN/PWM        |
| 绝缘耐压Insulation and voltage resistance | 2000VAC            |
| 防水等级Waterproof Rate                   | IP67               |
